CAMP CONTINUES TO ASSIST HOME

Mrs. Houchings Will Remain at Institution for Needy Confederate Women.

Mrs. L. M. Houchings, protégée of R. E. Lee Camp of Confederate Veterans, who was dismissed from the Home for Needy Confederate Women in April for failure to abide by the rules of the institution, has been reinstated as an inmate, and has agreed to remain and to abide by the rules of the institution.

At last night's meeting of Lee Camp, Rev. James Power Smith, D. D., as spokesman for the special committee appointed to acquit Mrs. Houchings and the authorities of the home with the recent action of the camp, made a report. Dr. Smith stated that on July 10 a meeting was held at which the members of the executive board of the home, Mrs. Houchings and the members of the camp's special committee were present. At that meeting an explanation of her relation to the camp and the home was fully made. He said the following: The conference the executive board of the home agreed to permit Mrs. Houchings to remain until October, when it will take final action on the matter. It seems likely now that she will remain permanently.

Continues Appropriation. Without a dissenting voice, the report of the committee was adopted, and it was ordered spread over the minutes. This action means the ringing down of the curtain on the little tragedy which for a time threatened to cause strained relations between R. E. Lee Camp and the Home for Needy Confederate Women. The camp then unanimously agreed to continue the annual appropriation of \$250 toward the support of the home.

Mrs. Houchings was placed in the home by the camp. Later, when called upon to assist in washing dishes and performing other tasks around the place, she rebelled on the ground that she was maintained by the Confederate veterans and would not have to abide by the rules as did the other inmates of that institution.

Charges were preferred against Mrs. Houchings and were sustained, with the result that she was suspended by the board of managers. An investigation was started by the camp and a special committee was appointed to ascertain the facts. Nothing was added which reflected on the character or veracity of Mrs. Houchings. She simply misunderstood her position.

BIDDING PUMPS

Water Committee Proposes to Increase Standpipe Supply.

Bids were opened last night by the Council Committee on Water for installing two new electrically driven pumps to increase the standpipe supply for the western part of the city. Several bids were received, but none in conformity with the specifications, or not including the certified check required.

The following were listed: Snyder Pump and Well Company, \$7,750; W. P. Longworth & Co., \$6,500; Smith-Connery Company, \$11,100; Davis-McCoy Company, city specifications, \$4,400; alternate bid on their own specifications, \$5,500; Lindsay Bros., \$3,110.20.

The bids were referred to a subcommittee consisting of Messrs. Moore, Boscher and Huber, with Consulting Engineer Traford and Superintendent Davis, for report at a special meeting.

COST TOO GREAT

Proposals for Water Extensions Tabled.

Plans for supplying water for use of citizens and for fire protection in the sections known as Howard's Grove and Madison Hill were tabled by the Committee on Water last night because of the excessive cost of laying water-takers and the small number of use city water until recently. It was noted, when city ordinances were reported that the supply main for Madison Hill would cost \$1,500 and that for Howard's Grove \$250. The sections for Madison Hill are situated on the east of Seventeenth Street, along the corporate limits adjoining the former town of Fairmount.

Short Sea Trips

New York and Boston

Richmond Transfer Co.

TRY-OUT DETAIL LEAVES FOR RANGE

Team Will Be Selected in Week's Practice at Morehead City.

Many of the members of the detail for the try-out of this year will be selected to come to Richmond last night. The start will be made at 9 o'clock this morning over the Norfolk and Western. Including the men who will be picked up in Norfolk, the party which will proceed to Morehead City, N. C., this afternoon will number about forty. The range which will be the scene of the try-out is at Camp Glenn, near Morehead City.

Major Stanley W. Martin, of Lynchburg, will be in command of the detail. He will gradually weed out the men, until by the end of next week the team for the annual matches at Camp Perry will have been selected. The fortunate ones will then remain a few days longer, to give them an opportunity to practice as a team. Unsuccessful men will be sent home from day to day. In all, twelve shooters and three alternates will be chosen.

Colonel Charles A. Dempsey, United States Army, retired, who is on duty with the Adjutant-General of Virginia, and as inspector of small arms practice, and who is the rifle expert of the Virginia Volunteers, will be with the party, giving it his counsel.

Couch Is Secured.

The detail considers itself fortunate in having secured the services of Gunnery Sergeant Peter F. Lund, of the United States Marine Corps, who will go with the detail as coach. The Virginia teams of the past know Sergeant Lund well, having been associated with him at Camp Perry.

Nine members of the Staunton Rifles, under Captain Opie, came in last night. This company is at the head in the State for interest in the try-out. Richmonders in the detail are as follows, all being from the First Regiment: Captain Charles M. Wallace, Sergeant Daniel J. Maddrea, Sergeant Paul F. Newell, Corporal Oscar L. Woodall, Corporal Charles F. Hawley, Corporal H. H. Bullock and Private Sexton Berg.

SEABOARD AGENT GOES TO ATLANTA

Stuart P. Stringfellow Made Assistant General Freight Agent for Road.

Announcement was made yesterday that Stuart P. Stringfellow, who for the past four years has been commercial agent in Richmond for the Seaboard Air Line, has been appointed assistant general freight agent at Atlanta. The appointment is effective on August 1.

The successor to Mr. Stringfellow will be announced within the next few days by Colonel Henry M. Boykin, division freight agent for the road. Mr. Stringfellow began his railroad career with the Seaboard Air Line. However, from 1894 to 1897 he was with the Atlantic Coast Line, going back to the Seaboard. In 1900 he left the railroad service, but continued to reside in Richmond until 1907, when he accepted the position of commercial agent, with headquarters in this city.

It is stated that Mr. Stringfellow becomes one of six assistant general freight agents for the Seaboard. Assistant General Freight Agent A. J. Pride, who has been stationed in Atlanta, has been appointed general industrial agent for the entire road, with headquarters in Norfolk. Mr. Stringfellow succeeds Mr. Pride. Mr. Pride succeeds J. W. White, who has accepted the position of traffic manager with the International Agricultural Corporation. Mr. White's headquarters will be in Atlanta.

Foundling Dies.

Four weeks ago a baby girl was deserted by its human mother in the grounds of the Marine Home. On Thursday she died at the Marine Home, and was buried in a casket made by Superintendent J. W. Jones.

When described the child was thin and poorly clad. There was nothing about its clothing to give any clue as to its identity. Efforts to find the mother have failed.

PROPOSAL MADE C. & O. EMPLOYEES

Road Will Increase Wages When Norfolk and Western Takes Same Action.

No reply has as yet been received by the Chesapeake and Ohio Railway from its proposition to its motive power employees in reference to the amount of wages. It proposes that it will grant an advance equal to that which may be granted by the Norfolk and Western, although the net earnings of the latter road are greater than those of the Chesapeake and Ohio.

The vote on the proposed strike is still going on all over the system among the shop men. It is presumed that the proposition of the road will come before the proper committees after the vote has been taken and canvassed.

Decline in Business.

The statement of the Chesapeake and Ohio regarding its proposal is as follows:

"The Chesapeake and Ohio Railway Company granted an increase of 8 per cent. to all employees engaged in the shops of the company during the year 1916, and is unprepared to make a further increase at this time, owing to the large decrease in the net earnings, due to the falling off in business and the large increases made last year in the wages of nearly every class of employees. The Chesapeake and Ohio is now paying practically the same rates as the Norfolk and Western Railway Company, and has made a proposition to the committee that it will, simultaneously with an advance in wages of shop men employed by the Norfolk and Western Railway Company, grant the same rate of wages to all employees of the Chesapeake and Ohio Railway Company engaged in similar occupations."

"As the Norfolk and Western Railway Company has earned at the rate of about 10 per cent. on its stock during the fiscal year ended June 30, 1917, and the Chesapeake and Ohio Railway Company but 5 per cent., the management of the latter company trusts that the fairness of its position will appeal to the great body of employees, with whom relations have heretofore been harmonious."

DRAINAGE SURVEY TO BE COMPLETE

All Preliminary Work on Chickahominy River Done by Government.

Well satisfied with the progress of the surveys for drainage on the Chickahominy River, G. G. Elliott, chief of the drainage investigations division of the United States Department of Agriculture, returned to Washington yesterday. Upon his return from Highland Springs, where he visited the camp of engineers of his department, Mr. Elliott talked most encouragingly of the possibilities of the projected development.

Not only will the work of the engineers be of such character that the conclusion of the task the situation will permit of letting the work to contract without further preliminaries or without cost to the landowners up to that time, but each citizen will be enabled to see for himself just what his individual gain will be. The charts made up will indicate the boundary lines between the channel of the river, the reclaimable lands and the lines between the property owners. The advantages to each individual can be readily seen.

Within a few days the work near Highland Springs will have been completed, and the eight men making up the corps of engineers will move further down the river to the third camping place.

Henrico Convictions.

George Woodson, colored, was given six months on the road yesterday by Magistrate Lewis for stealing a watch from James Murray. Woodson immediately noted an appeal to the Circuit Court.

Harry Wood, charged with trespassing on the property of the Richmond, Fredericksburg and Potomac Railroad, was fined \$25.00. William Clark, charged with non-support, was discharged. The charge against him having been withdrawn by his wife.

MRS. TENNEY GETS ALIMONY DECREE

Allowed \$125 Per Month as Permanent Income From Former Husband.

COUNSEL FEE TO BE \$750

W. L. Royall Is Recipient—Sensational Divorce Proceedings Ended.

Final disposition of the Tenney divorce proceedings was made yesterday when Judge Grinnan entered an order in the Chancery Court allowing Mrs. Emma S. Tenney \$125 a month permanent alimony. A final allowance of \$750 was made to William L. Royall as her counsel.

Several weeks ago Mrs. Tenney was granted a divorce from George O. Tenney, the court reserving questions of alimony and counsel fees. The proceedings ended one of the most widely discussed cases heard in the Chancery Court in recent years, the prominence of both parties and the nature of the litigation giving the trial general publicity. Mr. Tenney is president of the Atlantic Bitulithic Company. His wife is a sister of the Dowager Countess Von Krakow, and both have been prominent in social and club circles.

Two Suits Prosecuted.

A year or more ago Mrs. Tenney filed a suit against her husband for separation with alimony. Mr. Tenney answered with proceedings against his wife for absolute divorce. A sensational feature of the case was when William L. Royall, of counsel for Mrs. Tenney, brought charges against Louis O. Wendenburg, attorney for Mr. Tenney, alleging conspiracy to defame the good name of Mrs. Tenney. Judge Grinnan heard and dismissed the charges.

As an outgrowth of the main proceedings, Mrs. Tenney, through Mr. Royall, brought suit against the News Leader for certain publications, which she had recently been tried and decided in favor of the defendant newspaper, and against William F. Gordon for alleged libel, which has not yet been tried.

Depositions filed on both sides were of a sensational character. Mr. Tenney admitted her without question to her husband's apartments, and she claimed to have found incriminating letters which were submitted in evidence. She also told of finding among her husband's effects a woman's corset, of which mention was made when the case was argued.

Lawyers Were Persistent.

After two days of argument by counsel, Judge Grinnan took the case under advisement for several weeks, his final order commenting on the great mass of unnecessary depositions and the numbers of superfluous questions asked of witnesses.

Following the decision of the court, giving Mrs. Tenney a divorce, Mr. Royall raised the question of alimony and counsel fees, and there was a sharp contest. Under the order entered in motion to have an examination of Mr. Tenney's affairs made, Mr. Royall alleged that Mr. Tenney was a wealthy man, able to pay liberal alimony, while counsel for Mrs. Tenney held that the means of her client had been greatly exaggerated. Under the order entered yesterday, the allowance for counsel fees is final, several payments having heretofore been made on account by order of the court, and Mrs. Tenney is allowed permanent alimony from her former husband of \$125 a year, to be paid in monthly instalments of \$125.

NEW ENGINE COMPANY

Auto Fire Apparatus Too Big for Doors of Engine House.

Secretary L. Under the Fire Department, received a letter yesterday announcing that the new automobile fire engine ordered for the city would be ready for shipment within two weeks.

The engine will probably be in operation in Richmond before the end of the month. It will be installed at the Third Street Engine House as a test of the power and cost of maintenance of a motor engine as compared with the horse-drawn type. That engine house was selected as having about the least floor and the largest percentage of paved streets.

One change has been found necessary at the engine house in order to install the new apparatus. The patent spring doors will have to be enlarged. The present doors have a clearance of ten feet eight inches, ample for the smoke stack of the present engine, but the ladder construction of the new engine and hose wagon will require a clearance of twelve feet. The change will be made at once.

Barn Struck by Lightning.

[Special to The Times-Dispatch.] A New Canton, Va., July 14.—A heavy thunderstorm with a very much thunderstorm evening lightning struck and set fire to the barn of stable of George Boatwright near Williamsburg. The building was entirely destroyed, together with Mr. Boatwright's entire hay crop for this season.

It is estimated that the barn, which was burned to death. Three negro mules who were in the barn at the time were slightly wounded, but escaped serious injury. Mr. Boatwright's loss, which amounts to about \$800, is partially covered by insurance.

Burial at Chester.

Deputy Sheriff J. B. Lyne, of Henrico, has gone to Centralla, Chesterfield county, to attend the funeral of his brother, Henry C. Lyne, which will be held there today. Mr. Lyne died Thursday morning following brief illness.

To Owners of Government Bonds

This bank will receive UNITED STATES GOVERNMENT BONDS on deposit, and will pay 2 per cent. plus the interest received on the bonds for their use. This is an opportunity for owners of United States bonds to materially increase their income without disposing of their bonds.

Owners of over One Million Dollars of Government Bonds have deposited bonds with the banks of this city.

AVAIL YOURSELF OF THIS OPPORTUNITY.

AMERICAN NATIONAL BANK
RICHMOND, VIRGINIA.

RICHMOND-MADE GOODSON EXHIBIT

City Will Be Represented in Display of Southern Commercial Congress.

WILL MEET HERE IN 1915

Commercial Train Will Visit This City—C. & O. Extending Aid.

Richmond's industries will be fully represented in the permanent exhibit of Southern products which will soon be installed in the new building of the Southern Commercial Congress in Washington. This announcement was made yesterday by Clarence J. Owen, the commissioner of agriculture for the congress, at the close of a successful mission to this city.

It is planned to have extensive exhibitions in the ground floor of the magnificent structure devoted to the aims of the Southern Commercial Congress. They will include the raw materials and the manufactured products of the South. Inasmuch as Richmond has some of the largest plants of their kind in existence, it will result in this city being unusually well represented. Mr. Owen was much pleased with the co-operation given him here.

Run Southern Train.

He had other important announcements to make regarding Richmond. This city will be on the itinerary of the commercial train which will make a tour of all the Southern States, starting from Washington early in the coming autumn. Speakers will be of this tour, and will be connected with the congress and its work, and will be aided by experts from the United States Department of Agriculture, who will deliver lectures on all branches of agricultural development along lines similar to those pursued by the farmers' institute trains run by the several States.

Mr. Owen saw President George W. Stevens, of the Chesapeake and Ohio, and secured the co-operation of that official. Railroads generally are offering to transport the cars of the party without charge. The Southern has already been secured, and Norfolk and Western is probably the only other Virginia road which it will be necessary to call upon. President Johnson is in hearty accord with the work of the congress. Steps will be made only in the larger cities.

Held Meeting Here.

Another announcement is that the last of the five great meetings of the Southern Commercial Congress which have been planned will be held in Richmond in 1915. This year the session will be held in Atlanta, fifty years after the beginning of the war between the States. Nashville is the meeting point for 1912 and New Orleans for 1913. At that time, it is expected, the Panama Canal will be actually finished and open to traffic, and the gathering on the occasion of the special reference to which this special reference is made, will be a prize means in the development of the new South. The trans-Mississippi country is to be touched in 1914 at Oklahoma City.

The Richmond meeting will be held five years after the time when the conflict ceased, little attention will be paid to memories of the past. The purpose of this congress is to look to the future, and the Richmond meeting will be dedicated to the victories of peace. It is noticeable that the gathering in Richmond will not only be the semi-centennial of the ending of the strife between the North and South, but will also be the centennial of the conclusion of peace between the United States and the mother country of England.

HEAR TRANSFER CASE

Evidence to Be Taken for Interstate Commerce Commission.

Depositions will be taken in Richmond Monday by a special examiner of the Interstate Commerce Commission on the petition filed by W. G. Cosby, alleging that the Richmond Transfer Company has conspired with this city in order to effect a monopoly. Cosby alleges that the railroad is favoring the Richmond Transfer Company by permitting only its representatives to solicit business at their depots and upon trains.

The special examiner will probably sit in the United States court-room to take evidence.

Police Court Cases.

Sadie Belle Brown and William Johnson, colored, appeared yesterday in Police Court on a charge of selling cocaine, and Sadie was ordered held for the grand jury. The hearing of Johnson was continued to July 27.

The charge against T. L. Haines of passing a worthless check for \$15 on C. A. Slaughter and one for \$15 on G. S. Galeski was continued July 15 in order that he might communicate with his friends.

Charles Robinson, colored, charged with wounding Bessie Love, was sent on to the grand jury.

In More Trouble.

L. B. Phillips, colored, faced another charge in Police Court yesterday morning, when he appeared on a charge of forging a check for \$15.00 on the True Reformers' Bank, by which he was formerly employed. He is alleged to have used names of L. D. Dodge and W. L. Taylor. The case was continued to this morning.

The case was continued to this morning. There are other like charges against Phillips, and they are to be heard on July 25.

Suit Instituted.

Suit was instituted yesterday in the Law and Equity Court by the Richmond Scale Company against the Dixie Scale Company for damages in the sum of \$1,350.

Marriage License.

A marriage license was issued in the Hustings Court yesterday to London O. Johnson and Lottie Lee Clayton.

Beginning This Morning

Every Straw Hat in the house is reduced in price. At \$1.65 Hundreds of Hats Worth up to \$4.00. At \$2.85 Hundreds of Hats Worth \$5.00. All Panamas Are Reduced.

Gans-Rady Company

CITY WILL SELL WATER TO SUBURB

Water Famine at Woodland Heights Relieved by Council Committee.

Immediate relief of the water famine at Woodland Heights was authorized by the Council Committee on Water last night, the suburb being allowed to make a two-inch connection with a water main in Semmes Street as a temporary expedient, paying for the water used at meter rates fixed by city ordinance. A. M. Gover appeared for the people of Woodland Heights, saying that there were ninety-eight water takers; that two of the artesian wells had gone almost dry and a third had not yet been sunk deep enough to give a permanent and adequate supply. The water company offered to bear all the cost of the connections and meter, but would make no profit on the transaction, since it charges its consumers at same per gallon as will be charged to the company by the city.

Chairman Mills said that he was aware that under strict construction the connection would have to be authorized by the Council, and an ordinance to that effect was recommended for adoption, but Mr. Mills added that in view of the emergency he had no hesitation in taking the responsibility of authorizing the connection at once, and the Water Committee approved that course.

John Camp arranged for the meeting and acted as chairman. One of the features was a debate between S. M. O'Bannon and H. C. Hechler, candidates for treasurer. Mr. O'Bannon promised the people greater things and a more businesslike administration if elected, while Mr. Hechler declared that the office which he now holds is a model, and that its system has recently been adopted in various points throughout the State. Mr. O'Bannon said he could collect more taxes, and Mr. Hechler maintained that he now got every penny it was possible.

NEGRO DROWNED

Was in River for Swim When Over-taken by Death.

Willie Nichols, colored, of 546 East Main Street (rear), was drowned at 5:30 o'clock yesterday afternoon in the James River at the foot of Twelfth Street. Nichols was in the river for a swim when he was overtaken by a sudden search was made for his body. It is expected, however, that the body will be recovered to-day.

Wandered From City Home.

Raymond Harris, a small pickaninny, about a year and a half old, was picked up on the streets last night as a vagrant and a fugitive from the City Home. Raymond said he had just gone out to play when he found out that he didn't know where he was. He is said, however, to have been a frequent visitor at the First Station. Raymond's parents are dead. He knows his name, and that it all. He couldn't even guess at his age. He cried a few minutes, but a package of candy brought him back to his face, and he was happy again.

Servant Charged With Theft.

Virginia Coates, a 35-year-old colored servant girl, was arrested yesterday on a charge of stealing \$310 from Mrs. Harry Boone, of 504 North Second Street.

The girl is said to have stolen the money from under Mrs. Boone's pillow while the latter was asleep. Patrolmen found the money and took it to the money alleged to have been stolen.

OLD RESERVOIR IS CHARGED WITH NEED OF REPAIRS

Marshall Structure Demands Waterproof Basin and Stronger Banks.

Serious conditions at Marshall Reservoir, the oldest portion of the city's Water Works, were reported to the Council Committee on Water last night by a subcommittee headed by Alderman Mitchell, and a request was forwarded to the Council for an appropriation of \$12,000 to waterproof the basin and strengthen its embankments. The report of the subcommittee was to the effect that either through age or defects, there was a certain amount of leakage through one of the embankments, showing evidence of perforation which might indicate general weakness.

The old Marshall Reservoir was erected in 1832, and has been in almost constant use ever since, being for half a century the city's only source of supply. Since the New Reservoir was constructed it has served the lower part of the city not dependent on the high pressure from the New Reservoir.

The Marshall Reservoir is also famous as the scene of the murder of Lillian Madison, leading to the famous trial and conviction of Cluverius.

The report asks the Council to take prompt action on the appropriation, for if the embankment continues to weaken it may be necessary to empty the basin to avoid endangering surrounding property. The Marshall Reservoir was cleaned of all mud and deposit of every sort last year, and was believed until recently to be in excellent condition. The subcommittee reports that the inner surface should have been waterproofed by being lined with cement at that time.

Broke Arm While Cranking.

The engine "kicking back," the arm of Cuthbert Lee, fourteen-year-old son of Mrs. A. S. Lee, 1621 West Grace Street, was broken yesterday about noon when he attempted to crank an automobile at Foushee and Grace Streets. He was hurried to the Virginia Hospital, where the fracture was set, and he was later removed to his home.

Erect Brick Garage.

A building permit was issued yesterday to O. Herbert Funtley to erect a brick garage in rear of 1315 Monument Avenue, to cost \$1,000.

SAYS CANDIDATE IS NON-RESIDENT

W. W. Tiller Charges That Simon Solomon Lives in Richmond.

In a speech before a small gathering of voters at Glen Echo last night, W. W. Tiller, candidate for the Democratic nomination for sheriff of Henrico, charged that his opponent, Simon Solomon, was not a resident of the county which he wished to represent, but lives in this city. Mr. Solomon was not present to reply to the assertion. Aside from the mere allegation, Mr. Tiller made no comments.

The City Directory gives the home of Mr. Solomon at 1161 Floyd Avenue. Messrs. Solomon and Tiller are opposing L. H. Kemp, incumbent, who was also present and spoke.

Last night's meeting took place in the open, when about twenty candidates for office pleaded their cause before fewer citizens than their own number. The majority of the small gathering was constituted of women and children.

Silence Could Be Felt.

The meeting was not characterized by any enthusiasm. Not in a single instance was the quiet of the little settlement disturbed by applause as the speakers descended from the platform.

John Camp arranged for the meeting and acted as chairman.

One of the features was a debate between S. M. O'Bannon and H. C. Hechler, candidates for treasurer. Mr. O'Bannon promised the people greater things and a more businesslike administration if elected, while Mr. Hechler declared that the office which he now holds is a model, and that its system has recently been adopted in various points throughout the State. Mr. O'Bannon said he could collect more taxes, and Mr. Hechler maintained that he now got every penny it was possible.

HAS DANGEROUS FALL

Carpenter Fractures Spine—Unable to Give Residence.

In some manner unaccountable to him, George Blackburn, forty years old, a carpenter, fell from a forty-foot scaffold at Eighth and Broad Streets at 5 o'clock yesterday afternoon and fractured his spine.

He was picked up unconscious, and the city ambulance, with Dr. Tatter in charge, was summoned. Blackburn was still unconscious, but was revived, and was taken to the Virginia Hospital. There further examination disclosed that there was an apparent fracture of the spine, besides internal injuries.

Blackburn was unable to tell how the accident occurred, except that his foot slipped while he was working on the scaffold, and he could not give his address further than to say that he lived on Twenty-first Street.

Trial Postponed.
